To Whom It May Concern

The Jacksonville Transportation Authority (JTA) hired Core Construction Company of Jacksonville as the result of a Design Build solicitation for the construction of a new 9,000 SF office building and expansion of the parking area at our Myrtle Ave campus. As the Project Manager, it was my pleasure working with the Core Construction Design Build team in taking the initial conceptual floor plan thru final design and subsequent issuance of the required City building permits.

Construction activities commenced immediately upon issuance of the permits, and proceeded uninterrupted thru final completion and receipt of the Certificate of Occupancy.

The Core Construction team was highly efficient in coordinating the various phases of the construction activities with JTA staff to minimize any impacts to daily operations and allowing the project to be completed in a timely manner

I would highly recommend this company and look forward to working with them again on future projects.

Sincerely

A handwritten signature in blue ink, appearing to read "Richard Schwabe".

Richard Schwabe  
JTA Project Manager
